Damn... 4 years later and nothing... rip off. Out of the three ND games I've played, the other two being Shadow Ranch and Blue Moon Canyon, this is by FAR the WORST. The gameplay is different then that of the other two and though I see what the delvelopers were trying to do, making it a bit more about deduction and detective work, they FAILED. You're able to interact with very little in the enviroments, making them very dull, you have to spend a LOT of time on the phone, there are little things that are never solvled/explored and throughout much of the game it felt like I was grinding instead of enjoying the game. However beyond all of that the thing that I found to be the most aggravating is that this game takes all of those mini games from previous ND games, multiplies them and makes every advancement of the plot completely reliant on tedious, repetitive tasks. Skip this one unless you've played all the other and do not get it at full price!. So far I like it. Trying to come up with combinations of parts to make a vehicle to complete the missions is fun and often rather challenging. The lights do help on some levels to see things that are hidden in the dark :) And rockets can just be plain awesome!

Honestly I've actually spent more time just doing bizarre combinations of parts making crazy vehicles than seriously trying to complete the levels so far.....

If you like building things and solving puzzles then this should be a good way to do both.

. I am bad at these kind of games and this one is no exception. I absolutely love the angle the creators took when making the theme. The variety in the level types keeps it very interesting. Maybe someday they could add a level creator? Beyond that and more levels, this game is essentially feature complete.. it's a game. goodnight.. I was hesitant to buy this when I saw the low amount of reviews but reading those 50 reviews (the majority of which are positive) I thought I may as well try it out. I mean I can always refund. I then purchased the title and jumped online to discover all of the official servers empty. In total there were only 6 people playing online. I almost refunded it immediately. I mean for a new release to not have any real online community was disheartening.

I decided to play anyway with the intent to refund the game. Well 2 hours later I was having a blast. This game is a lot of fun. Kind of an old school adventure game. For a simple looking game it is actually quite a bit of fun and is certainly challenging so far. The game runs great and the bugs that I have discovered are very minimal and in no way game breaking so far. In fact this is one of the better EA releases I have played; and I fall for a lot of EA titles. This one shows a lot of promise. It's a relaxing game to play with plenty of tense oh %\$#@ moments to mix it up. It is not D&D but it reminds me of D&D adventures...

There is a lot of work ahead for the devs but so far so good. Even with the lack of player pop I will play this anyway. I love a good survival\adventure\fantasy type game.. This game is too expensive in my opinion, there is a lot of bugs in the game and they dont even update it anymore. I don't recommend this game.

---

It's not a very difficult game. The plots are smooth and the settings are good. The graphics brings back England in the 30's. Some counter-climax at the end of the story but it is all fine. Overall, good game but not one that you have to own, unless you are a fan of Agatha Christie and her detective - Mr. Poirot. There is an interesting index of tracking how close you are thinking in the same way as did Mr. Poirot, if you choose the right responses in a conversation or the right actions in certain circumstances. The logical thinking test, to choose from the appropriate clues to arrive at a correct answer, is somewhat tardy to the game but it flows along well with a detective story. On the other hand, the soundtrack is great. Note the slide above in Steam store to resolve one of the locker problem, out of may, with password in Chinese characters in this game.. The last chapter is too hard for me but the game overall is a big improvement over the first one,if you have rage issues don t play this.

7V10. This is a cute adventure game designed/programmed by a lady. Sometimes it feels a little childish but it is funny in a cheesy way. See if you can get it on sale!. good in game mesasge system  
. The most fun I have had in VR. This game has the potential to be something special. The only fault that this game has is that it was released a bit to early but the devs are working so hard to make sure that all the problems are fixed and not just masked over. Please give them and this game a chance and dont be put off by any negative reviews and you will hopefully love it as much as I do.. Great little game!

It's got 2 game modes - classic & strategy. Classic is a race against time. Strategy is slower paced (turn based), but actually much harder because your resources are scarce & your turns are limited.

The game is short - I've played each plant a few times - but not all experiences need to last for hours. I hope the devs come up with something else soon.. Just WOW! in my MANY years of gaming, I don't think a game has moved me so much!! this is so worth it, its basically and interactive story, but its so amazing, it'll make you smile, it'll make you chuckle, it'll make you wonder and think and more than likely it'll make you feel!. Funny visual story about a green forest maid with green boobs :)))) who fell in love with her lady boss :)

There are different endings, i've already found two or three of them, but all these were wrong; so i will definitely be looking for some better one :)

Pleasant beautiful graphics, big boobs, nice sense of humour - perhaps too many boring dialogues, but developers thought about that and made a button to rewind fast forward all the dialogues that you have already read.. Extremely buggy in multiplayer. A fun game, which makes up for its short length in the beauty of its illustrations and the lovely tune that plays soothingly in the background. The controls are simple in principle, and there is little in the way of threat. The closest to difficulty comes in the form of the slightly frustrating jumping which, as I can only assume was intentional, seems to be based either around physics or some form of momentum as it is kind of floaty. This brings the music back to the fore, as well as the concise length, as any longer or any music less soothing might have resulted in a lot more frustration at what should have been simple jumps. Then again, a game without a challenge is hardly a game, and the challenge in this game is the jumping. All in all, well recommended, and for less than a bottle of fizzy drink I had far more enjoyment. Cannot complain! Also - dinosaurs are awesome, but an ice skating penguin with a hard hat...well - that is epic!
