I have only played 30 minutes of this game and I cannot play anymore as it is way to easy to play if the game does not glitch.

Pros - Great Concept

- A different mission every time
- Maps are way too small

Cons - Infected glitch through wall

- Some missions are way to easy, your killing time for no reason

https://www.youtube.com/watch?v=y_Es6WJ1DeM. I found 3 Tomar Emeralds on the first level alone, and for that, I must give this game a fair review.

[Having found a grand total of 4 Tomar Emeralds and 3 Nasally Tokens in this game, I can honestly say that I 100 percent recommend this game. I don't like how steep the price is, but it's understandable. I can't imagine how much the developer spent on the soundtrack alone; it couldn't have been less than 30 cents.](#)

[This game was truly a blast and I hope to see more from the developers in the future. Together, we can discover all of the funny boy coins and take down the Trump. The only reason I have not 100 percented this game s bezus i hav lost abut 6 kromozonz so far, da toe marr gem worksfaas tf.](#)
